Industry debate

A lively debate between Mark Hansford, Editor of New Civil Engineer and Michèle Dix CBE, MD of Crossrail2 on the effectiveness of the term 'feminist' in bringing about change. After hearing from both sides the audience voted in favour of the opposition who argued we did *not* need to be labelled feminists.

Speed Mentoring

We are delighted to be hosting the first pan-industry speed mentoring event on Wednesday 27 May, kindly sponsored by AECOM.

The event will feature over 30 mentors from across the transport industry.

This event provides a rare opportunity for individuals to have a number of intimate sessions with some of our most successful senior leaders who collectively have a huge range of experience from all corners of the industry. It is also an opportunity for individuals to reflect on their own development and consider the critical areas to a successful career.

This event is open to everyone so please feel free to forward on to your colleagues.

Registration for this event will open on **Tuesday 5 May**.

Time: 6pm-9pm

Location: Alan Baxter Gallery, 77 Cowcross Street, London, EC1M 6EL

Inspiring the next generation

What do young people think of the transport industry?

We are using 100 YOWIT as an opportunity to rebrand our industry and showcase the diversity of careers it offers in a way that engages school children, teachers and parents.

We are looking for sponsors to support research in this area which will inform the development of a toolkit which we hope to make available to the industry, schools and parents towards the end of the year. If you are interested in supporting our schools engagement work please [email](#) the team.
