## Introduction

The Women's Engineering Society has a number of partnership options available to companies and educational establishments wishing to support the work that we do in encouraging diversity and inclusion in engineering. For further details about WES please see our website at [www.wes.org.uk](http://www.wes.org.uk) or contact our Partnerships Manager Jacqui Hawkes at [corporates@wes.org.uk](mailto:corporates@wes.org.uk) or WES office on [info@wes.org.uk](mailto:info@wes.org.uk).

Our programmes are designed to enable you to:

- support the work of WES in increasing diversity and inclusion in the engineering sector
- engage with the next generation through joint outreach activities
- attract your next employees through our networking events, conferences, job advertisements and brand promotion and through support of our University Student Groups
- support your female technical staff and gain access for your women engineers and scientists to tailored leadership, personal development and networking events
- give your employees the opportunity to become WES volunteers and outreach ambassadors and to engage with our outreach events
- gain opportunities to speak at our conferences and events
- work on a specific project or research activity
- promote your jobs on our website, newsletter and through our social media to our community of over 20,000 members
- connect with our student engineers and apprentices and promote your job opportunities directly
- raise your organisation's profile and the profiles of your role model women engineers and technicians
- use your corporate membership to gain visibility for your commitment to diversity and inclusion when bidding for contracts

Company membership and partnership gives you the opportunity to collaborate with WES in its various activities and in return enjoy the benefits of being part of the WES network. We can offer you a way to connect your technical women with each other and enable them to share their passions for engineering and allied sciences. We can add value to you, your employees and your organisation by sharing knowledge and information and connecting women across sectors.

The formal packages that are available are shown on subsequent pages, but please bear in mind that any combination of engagements can be tailored to a package of your choice.

Type	Description	Cost
Event Partnership	Basic level, one additional project, plus sponsorship of annual WES conference and WES Student conference	£10K + VAT
Company Membership Plus	Basic level plus one additional project sponsorship	£5K + VAT
Company Membership	Basic level corporate engagement offering a combination of benefits	£2K + VAT
Education Membership	for Further and Higher Educational establishments	£1.5K + VAT
Not for Profit Membership	For non-profits	£1K + VAT
Conference Sponsorship	Sponsorship of a single conference or event	Various
Media Partnership	options available for advertising in our e-newsletter, printed journal 'The Woman Engineer', or website (see separate publication), or as Event Media Partner	Various
Project Sponsorship	To support a particular project	Various

## Event Partnership

This is an annual partnership which combines headline sponsorship of the WES events\* with a year-long engagement with WES in support of your gender diversity and inclusion work.

- Headline sponsorship of annual WES conference and WES Student conference, and the option of providing a plenary or after dinner speaker
- 5 sponsored student bursary places at the WES student conference (including accommodation)
- Advertisement as headline sponsor of the annual WES event, including the Student conference, the WES Annual conference, and any other events planned during the year
- Hyperlinked company logo on front page of WES website for one year
- Half-page advertisement in one issue of *The Woman Engineer* printed Journal
- Advertising flyer inserted in one issue of the printed journal per year
- Logo and link on WES website and in every monthly e-newsletter for the year
- 30 individual employees given WES individual membership for one year
- *She's an Engineer* feature given to your Company role models
- Representation by WES at up to 2 of your company women's events
- 10 jobs advertised on WES Website Jobs Board and Monthly e-newsletter
- Access to best practice advice and support for your Diversity Programmes
- 4 representative places at all WES events during the year (not including accommodation at the student conference)
- WES will retweet any tweets that you send to us
- Quarterly Communication Updates from WES
- Ability to advertise your sponsorship of WES and your commitment to Diversity and Inclusion in Engineering, and raise your company profile to women engineers
- Opportunities for your staff to engage with WES on our volunteer programme of activities
- Bi-annual 'Best Practice' knowledge sharing sessions with other WES Corporate Partners
- Please also note that you are entitled to use the WES Company Member logo to denote that you are a Corporate Partner of the Women's Engineering Society.

**Cost: £10K + VAT per annum**

### **\*WES Annual Events**

The WES annual events, which can be seen in more detail on page 11, are:

- WES Annual Conference, Spring annually
- Prestige Lecture and Award Presentation, Autumn annually
- Student Conference, November annually
- WES Fellows Dinner

Other events include Scottish Circle events – for details see the website here – <http://www.wes.org.uk/scottish> and other regional events organised by our Cluster groups.

## Company Membership Plus

This is one step up from the standard WES Membership package and includes Company Membership for one year with one other benefit from the list shown below.

- Hyperlinked company logo on front page of WES website for one year
- Quarter page advertisement in one issue of *The Woman Engineer* printed Journal annually or
- Addition of advertising flyer to one issue of the printed journal per year
- Logo in every monthly e-newsletter for the year
- 15 individual employees given WES individual membership for one year
- *She's an Engineer* feature given to your Company role models
- Representation by WES at up to 2 of your company women's events
- 5 individual jobs advertised on WES Website Jobs Board and Monthly e-newsletter
- Access to best practice advice, and support for your Diversity Programmes
- Representative place at all WES events during the year (not including overnight accommodation at student conference)
- WES will retweet any tweets that you send to us
- Quarterly Communication Updates from WES
- Preferential Rate of Conference Sponsorship
- Ability to advertise your sponsorship of WES and your commitment to Diversity in Engineering, and raise your company profile to women engineers
- Opportunities for your staff to engage with WES on our volunteer programme of activities
- Bi-annual 'Best Practice' knowledge sharing sessions with other WES Corporate Partners
- Please also note that you are entitled to use the WES Company Member logo to denote that you are a Corporate Partner of the Women's Engineering Society.

### PLUS

One other benefit from this range of options (or please feel free to suggest others):

- Named as the **sponsor or joint sponsor of a chosen WES project** (see further information sheet for examples of WES projects) – depending on cost of project
- Basic sponsorship (not Headline) of one WES annual event from choice of student conference, International Women in Engineering Day, WES Annual Conference, Prestige Lecture or Fellows' Dinner (depending on particular events being held in given year)
- Sponsorship of WES Award, such as Senior Woman Engineer
- MentorSET mentoring package. This 'Plus' Membership gives you a mentoring package for up to 20 female employees as mentees. Visit: <http://wes.org.uk/partnermentorsetplus>

**Cost: £5K + VAT per annum**

## Company Membership

This is our standard Company Membership and enables us to support and promote you as a Company whilst allowing us to continue with the work that we are doing to promote gender diversity in engineering.

- Hyperlinked company logo on front page of WES website for one year
- Quarter page advertisement in one issue of *The Woman Engineer* printed Journal annually or
- Addition of advertising flyer to one issue of the printed journal per year
- Logo and link on WES website and in every monthly e-newsletter for the year
- 15 individual employees given WES individual membership for one year
- *She's an Engineer* feature given to your Company role models
- Representation by WES at up to 2 of your company women's events
- 5 individual jobs advertised on WES Website Jobs Board and Monthly e-newsletter
- Access to best practice advice, and support for your Diversity Programmes
- Representative place at all WES events during the year (not including overnight accommodation at student conference)
- WES will retweet any tweets that you send to us
- Quarterly Communication Updates from WES
- Preferential Rate of Conference Sponsorship
- Ability to advertise your sponsorship of WES and your commitment to Diversity in Engineering, and raise your company profile to women engineers
- Opportunities for your staff to engage with WES on our volunteer programme of activities
- Bi-annual 'Best Practice' knowledge sharing sessions with other WES Corporate Partners
- Please also note that you are entitled to use the WES Company Member logo to denote that you are a Corporate Partner of the Women's Engineering Society.

**Cost: £2K + VAT per annum**

## WES Education Membership

The Women's Engineering Society recognises that many Universities and Colleges are working hard to support and increase the number of female students and staff, and to bring gender diversity to their traditionally male dominated Departments such as engineering.

WES has a number of ways in which it can support this activity, and through a formal partnership we can ensure that we work together to obtain improvements in gender diversity.

Becoming an Educational Partner of WES will give you the following benefits:

- Hyperlinked company logo on front page of WES website for one year
- Eighth-page advertisement in one issue of *The Woman Engineer* printed Journal annually
- Logo and link in every monthly e-newsletter for the year
- Student Membership for your female engineering students plus individual memberships for up to 10 staff for one year
- *She's an Engineer* feature given to your University students
- 5 individual jobs advertised on WES Website Jobs Board and Monthly e-newsletter
- Representative place at all WES events during the year (not including overnight accommodation at student conference)
- WES will retweet any tweets that you send to us
- Quarterly Communication updates from WES
- Preferential Rate of Conference Sponsorship
- Set up and support of a WES affiliated Student Group and help with the delivery of the activities that the group identify (further details at <http://wes.org.uk/students>)
- Support and advice with your Athena Swan applications through access to WES resources, members, experience and projects
- Public endorsement of your activities in gender diversity
- Publicity of your successes and achievements through our newsletter, social media and printed journal
- 15% reduction to the cost of individual student places at the annual student conference or 5 student places for £1000
- Opportunities for your staff to engage with WES on our volunteer programme of activities
- Bi-annual 'Best Practice' knowledge sharing sessions with other WES Corporate Partners
- Please also note that you are entitled to use the WES Education Member logo to denote that you are a Corporate Partner of the Women's Engineering Society.

**Cost: £1,500 + VAT per annum**

## Not for Profit Membership

The Women's Engineering Society recognises that many not-for-profit organisations and groups are working hard in the area of gender and other types of diversity and inclusion in engineering, and this membership category offers a mechanism for a formal partnership with WES.

- Hyperlinked company logo on front page of WES website for one year
- Quarter page advertisement in one issue of *The Woman Engineer* printed Journal annually or
- Addition of advertising flyer to one issue of the printed journal per year
- Logo and link in every monthly e-newsletter for the year
- 10 individual employees given WES individual membership for one year
- *She's an Engineer* feature given to your Company role models
- Representation by WES at one of your company women's events
- 4 individual jobs advertised on WES Website Jobs Board and Monthly e-newsletter
- Access to best practice advice, and support for your Diversity Programmes
- One representative place at all WES events during the year (not including overnight accommodation at student conference)
- WES will retweet any tweets that you send to us
- Quarterly Communication Updates from WES
- Preferential Rate of Conference Sponsorship
- Ability to advertise your sponsorship of WES and your commitment to Diversity and Inclusion in Engineering, and raise your company profile to women engineers
- Opportunities for your staff to engage with WES on our volunteer programme of activities
- Bi-annual 'Best Practice' knowledge sharing sessions with other WES Corporate Partners
- Please also note that you are entitled to use the WES Company Member logo to denote that you are a Corporate Partner of the Women's Engineering Society.

**Cost: £1K + VAT per annum**

*Please note prices are exclusive of VAT which will be added as applicable*

## Event/Conference Sponsorships

In 2017 WES is planning the following events:

- WES Annual Conference, Spring 2017
- International Women in Engineering Day 23 June 2017
- Prestige Lecture and Award Presentation, Autumn 2017
- WES Student Conference, November 2017
- Fellows' Dinner, December 2017
- Scottish Circle Event Series [www.wes.org.uk/scottish](http://www.wes.org.uk/scottish)

Opportunities to sponsor these events are as follows. Please note that all prices will be subject to VAT.

### • **WES Annual Conference 2017**

Headline Sponsor: £4K + VAT

Conference Partner and Exhibitor: £1.5K + VAT

Exhibition Space only: £750 + VAT

### • **International Women in Engineering Day (INWED) 2017**

Headline Sponsor for INWED Awareness Day: £3K + VAT

Not for Profit Headline Sponsor for INWED Awareness Day: £1k + VAT

Please contact the WES office to discuss these options further on: [corporates@wes.org.uk](mailto:corporates@wes.org.uk)

### • **Caroline Haslett Lecture and Award Presentation Sponsor 2017**

Headline Sponsor: £3K + VAT

Award Sponsor: £3K

### • **Student Conference, Engineering Inspiration 2017**

Headline Sponsor: £6K + VAT

Company Bursary Programme: £2.5K + VAT

Friday night evening Reception and Dinner Table Sponsorship per table of 10 Exhibitor:

£1K + VAT

Combined Table Sponsorship/Exhibitor Package: £1.75K + VAT

### • **Fellows' Dinner**

See our growing list of fellows here <http://www.wes.org.uk/content/list-wes-fellows>

Headline Sponsor: £3.5K + VAT

### • **Scottish Circle Event Series [www.wes.org.uk/scottish](http://www.wes.org.uk/scottish)**

Headline sponsor of series of four evening networking events: £4K

## Project Sponsorship 2017

Project sponsorship gives you the ability to sponsor one of the WES projects in order to brand and support one of our activities or set up a joint activity of your choice.

WES has a number of projects that are ongoing and in need of sponsorship and support. If you are interested in finding out any more about these projects and how to get involved, please get in touch by emailing [corporates@wes.org.uk](mailto:corporates@wes.org.uk) Or if you have ideas for your own project then equally please let us know.

### **MentorSET**

MentorSET is a UK wide mentoring scheme for women in STEM (Science, Technology, Engineering and Maths). Set up in 2002 it has worked with over 1000 women across the UK as an independent, confidential, supportive development resource. It is a membership scheme which comprises a one to one mentoring scheme and a range of peripheral benefits including speed networking, business breakfasts and development opportunities.

### **Why MentorSET?**

Originally launched by WES in 2002, MentorSET has a number of unique advantages:

- Experienced in providing hundreds of mentoring matches since inception
- Primarily (but not exclusively) for women, with men and women mentors supporting women mentees
- A fully managed scheme – mentors and mentees individually hand matched, enabling pairs to be matched more appropriately and effectively
- 'Career mentoring', not linked to the formal process of obtaining a qualification and suitable for any stage of a mentee's career and requirement
- Ideal for women wishing to be mentored to senior and board positions
- Not confined to one particular company, it offers the choice of pairing with someone from a similar or completely different sector (intra company mentoring is also a possibility)
- 'Portable', so women can remain with their mentor even if changing roles/companies
- Offers 'reverse' mentoring, where senior managers (male or female) are paired with employees from a diverse background to understand the issues minority groups face
- Can help with an organisation's diversity targets (information available on request)

### **Sponsorship packages**

A number of sponsorship packages are available if you are interested in MentorSET support. By partnering with this initiative, your organisation and your female employees will receive a broad range of benefits, outlined in the sponsorship packages below. MentorSET can also be provided as part of a WES Membership package. Packages are as below:

#### **1) MentorSET 50 (Principle Partner Package)**

1 Year Package: £10,000 + VAT

3 Year Commitment: £8,000 + VAT per year

Becoming a MentorSET Partner includes:

- Full access to a tailored MentorSET programme package to suit your organisation, or if appropriate, for up to 50 female employees as mentees

- Opportunity for 50 of your organisation's female employees to be mentors, including full mentor training
- Mentor/Mentee training session at your organisation's site
- Access to the MentorSET broader training programme for Continuing Professional Development (CPD), at special partner rates
- Inclusion of your company logo on the front page of the MentorSET website
- Feature/profile of a role model from your organisation in the MentorSET programme
- Identified as a MentorSET Premier Partner in MentorSET publicity and communications activity
- Identified as a MentorSET Premier Partner at all MentorSET events
- Optional place on a MentorSET advisory panel

## 2) **MentorSET 30**

1 Year Package: £6,000 + VAT

3 Year Commitment: £5,000 + VAT per year

MentorSET 30 Programme includes:

- Full access to the MentorSET programme for up to 30 female employees as mentees
- Opportunity for 30 of your organisation's female employees to be mentors, including full mentor training
- Mentor / Mentee training session at your organisation's site
- Access to the MentorSET broader training programme for Continuing Professional Development (CPD)
- Inclusion of your logo on front page of the MentorSET website
- Inclusion of your logo in MentorSET publicity and communications activity
- Inclusion of your logo at all MentorSET events

## 3) **MentorSET 10**

1 Year Package: £2,000 + VAT

3 Year Commitment: £1,500 + VAT per year

MentorSET 10 Mentee Programme includes:

- Full access to the MentorSET programme for up to 10 female employees as mentees
- Fully managed bespoke mentoring scheme for
- Mentor/Mentee training session at your organisation's site
- Access to the MentorSET broader training programme for Continuing Professional Development (CPD)

## 4) **MentorSET Individual**

For individual paying members of WES, MentorSET is available at a cost of £100 + VAT per member. This includes access to online training. For corporate members of WES there is a cost of £150 + VAT per individual.

## **International Women in Engineering Day, 23 June annually**

In 2014 WES launched the inaugural National Women in Engineering Day on 23 June to raise the profile and celebrate the achievements of women in engineering, and to encourage more girls to consider engineering as a career. This day has had phenomenal success and now has an international reach so has been relaunched in 2017 as International Women in

Engineering Day. The day has a significant impact on diversity in schools and the wider community and with your help, we can continue to produce and distribute our fantastic INWED resource packs and develop more innovative ways to reach out to more young women in the UK and across the globe, allowing us to change the face of engineering for years to come! [www.inwed.org.uk](http://www.inwed.org.uk)

Benefits of Sponsorship for INWED 2017:

- Logo on website, resource pack and all communications relating to INWED 2017
- Mention of your organisation in official INWED press release
- Opportunity to include literature in our resource packs
- Invited to INWED reception on 23rd June 2017, as a sponsoring partner
- Unique opportunity to directly promote diversity and equality in engineering
- Ability to use 'INWED Official Sponsor' in your communications

## Student Group Set Up

We have embarked on the set up of a number of WES affiliated student groups within Universities. The Athena Swan award at University level to encourage diversity is a great promoter of diversity, but this does not extend to the support of undergraduates, and the student groups we are setting up have the intention of ensuring that the minority of women engineering students have a mechanism of support during their degree life. We are seeking sponsorship to fund a part time member of staff to support and develop these groups, and also have some opportunities of partnering with specific universities.

*Student group currently exist at the universities of Bath, Loughborough, York, Leeds, Warwick, Welbeck, QMUL, UCL, Glasgow, and Swansea.*

## MentorSET

MentorSET is a mentoring programme of immense value to women (and men) engineers to help with their career development and progression. MentorSET is a unique mentoring programme owned by WES which started in 2002 and has been running successfully for 10 years until lack of finances prevented its continuation in September 2012. We have restarted this programme at a basic level and are currently looking for funding to enable the programme to continue at an enhanced level on a financially sustainable footing to positively benefit the 600 engineers per year who enrol on this scheme. [www.mentorSET.org.uk](http://www.mentorSET.org.uk)

## WES Skills Academy

A series of training course developed specifically for WES to support the MentorSET activity.

## Gender Diversity, Recruitment, Development & Retention Training & Support

WES is interested in developing a series of training seminars to support women engineers and managers and expand the MentorSET brand, and to enable companies and educational establishments to attract more female applicants.

## **Sponsorship in Support of WES Prizes**

WES gives out a number of prizes and awards annually (including the Karen Burt Award for best newly qualified chartered engineer, the WES Prize for the best Young Woman Engineer, Doris Gray scholarships and bursaries, Lady Finnieston Award). Funding is required in support of the administration cost of these awards, or the set-up of a new award to add to this suite. Best Senior Woman Engineer is one award that is not currently given in the UK.

## **50 Influential Women in Engineering**

The first list of 50 Influential Women in Engineering was released on National Women in Engineering Day 2016 (23 June) as a way of celebrating and promoting the inspiring female leaders in engineering in the UK. In 2017 the awards will focus on the Top 50 Influential Women in Engineering under the age of 35. Nominations are now open for this [here](#). 2017 Partners include the Daily Telegraph, the Women's Engineering Society (WES), BAE Systems, Bechtel and Scottish Power.

## **Series of Evening Prestige Lectures**

A series of evening prestige lectures organised in collaboration with the Professional Engineering Institutions given by women engineers and named after a pioneering woman engineer from the past is a way of allowing women to network with their peers – both women and men – and raise the profile of women in engineering from the past and present. Funding for a single or an annual series of these lectures is sought.

## **Strategic Work**

WES would like to undertake some strategic work – in collaboration with other women's networks, other diversity organisations and providers, and government departments – to establish a roadmap of activity in the area of gender diversity in engineering, and to ensure that effort expended in this area is maximised. This would involve regular (twice yearly) meetings of all diversity and engineering providers, and the co-ordination and mapping of the provision and its regional variations.

## **WES Centenary, 2019**

In 2019 WES celebrates its 100<sup>th</sup> anniversary and as part of these celebrations WES has ambitious plans for a number of activities throughout the year, including:

- Commissioning a book on 100 years of Women in Engineering
- A set of Royal Mail Stamps celebrating women in engineering
- A Science Museum Exhibition looking at the often hidden roles of women in the exhibits on display
- A travelling museum exhibition detailing the role of women in engineering
- Events and activities throughout the year

WES would like to hear from anybody interested in helping us celebrate this remarkable achievement.

## **Historian and Archivist**

WES has recently digitised the past copies of The Woman Engineer, our journal that has been in print since 1919. This is a fantastic archive of the role that women have played in engineering over the past 100 years. Funding for a WES archivist who is familiar with the WES history and is able to ensure that WES continues to correctly archive its activities is sought.

## Pro Bono Work

The Women's Engineering Society, as a small charity, has limited access to financial, human resources, legal and other specialist services and would be grateful for the pro bono support our partner organisations with any of these activities. Please get in touch with us to discuss your potential involvement.

See the WES website [www.wes.org.uk/projects](http://www.wes.org.uk/projects) for an up to date list of projects.

For further details of any of these projects or any of the funding options please contact the WES team Jacqui Hawkes, Partnerships Manager: [corporates@wes.org.uk](mailto:corporates@wes.org.uk) Tel. 01438 767447  
Or contact the WES office on [info@wes.org.uk](mailto:info@wes.org.uk) Tel. 01438 765506
