

**In 2018
146 students
from 26 universities
attended the
WES Student
Conference**

Transforming the Future

8 - 9 November 2019

Warwick University

The WES Student Conference supports young women to progress in engineering and allied sectors by providing access to employer perspectives, development opportunities and networking. This annual two-day event brings together students, academics and early-mid career engineers & colleagues to explore pathways to technical leadership.

- Highlight your commitment to diversity in engineering
- Demonstrate your organisation's best practice and network with other organisations in the engineering community
- Meet around 200 predominantly female undergraduate students studying a broad and diverse range of courses relating to engineering and allied disciplines
